

Thick Turret Tooling

Thick Turret Punching Made Easy

Wilson Tool High Performance™ Tooling for Thick Turret is uniquely engineered to be the fastest, easiest, most productive tooling available. With its innovative guide assembly and patented push button adjustment technology, no other thick turret tooling is as easy to set up as Wilson HP. Add unmatched quality and performance, and you have the most advanced thick turret tooling system in the industry.

The Wilson High Performance™ Tooling System sets a new standard for fabricating productivity and efficiency.

Experience the Unbeatable Performance of Wilson HP™

- ▼ Patent-pending push button adjustment technology, which is side-mounted for easy access
- ▼ Quick release stripper plate retention makes changing tools fast and easy
- ▼ Utilizes existing Series 90 punches and stripper plates
- ▼ Available in ABS, WLS, or Old Style configuration
- ▼ Optima™ coated keys for superior wear resistance
- ▼ Maximum available grind life
- ▼ Up to 50% more bearing surface, reducing side loading
- ▼ Made from hardened tool steel for increased durability
- ▼ External keyways at 0°, 90° and 135°
- ▼ Achieves angles of 0°, 90°, 135°, 180°, 270° and 315°
- ▼ Compatible with the Amada PDC system
